LANCASTER HEALTH NEEDS ASSESSMENT FOR RECEPTION CHILDREN

Parents and Carers of Reception Children

You will have been invited by the School Nursing service to complete an online health needs survey for your Reception child. This secure online questionnaire is about your child's health and well-being and can be used to address any concerns which you may have. A member of the school Health Team may contact you following completion of the questionnaire if needed.

All personal information collected from this questionnaire will be treated as confidential and held securely to meet with data protection requirements. Although individual information is anonymous, the wider information may be collated and shared, (for example information about lifestyle choices and behaviour) with the school and other agencies to improve services and the PSHE (Personal, Social, Health and Economic Education) curriculum.

The survey portal will be open for the next 4 weeks.

CHEF JAMES

Chefs for the day

On Tuesday 30th April we had an opportunity to be some chefs for the day because in class we was learning about nutrition. First thing we learned to always wash your hands!

The first activity we did called popcorn, sweet, honey, bitter, sour, salt and sourness amount. I loved the sour lemon.

The next activity we did some more taking I thought that it would be bubble gum but when we tasted it was actually lemon. I was really surprised.
