

Monday 22nd February

Writing Activity

From my window.....

Choose a window that you can look out of and describe what you can see.

WAGOLL

From my classroom window I can see an enormous playground with four, wooden picnic benches. There's nobody in the playground but there are some cheeky little animals about. On top of one of the benches is a rather large, white seagull and it's pecking at the table. Next to the playground is the field and I can see a pair of fat, grey squirrels running as fast as they can along the grass and up into the tall trees. The bright, blue sky is hidden because of all the grey clouds floating by. The trees are bare because it's winter but soon it will be springtime.
