National Assessment Scores

As I'm sure you are aware, our amazing Year 2 and Year 6 cohorts from 2020 and 2021 will not have the opportunity to have their SATs results published due to the government decision to suspend tests and end of year assessments due to the Coronavirus pandemic. We would like to take the chance to tell you how amazing our cohorts were and we are incredibly proud of everything they achieved throughout the academic years of 2019/20 and 2020/21. We may not have had the chance to show you a piece of paper with a percentage score on, but we can assure you they all showed 100% commitment, 100% dedication and 100% understanding as they adapted to these difficult times. We are very proud of each and every one of them.

Most Recent Published Assessment Scores Summer 2019
