

Practice activity

$2 + 1 = \square$

$2 + 0 = \square$

Adding 2 to an odd number gives the next odd number.

$2 + 3 = \square$

$2 + 2 = \square$

Adding 2 to an even number gives the next even number.

$2 + 5 = \square$

$2 + 4 = \square$

When you change the order of the addends, the sum remains the same.

$2 + 7 = \square$

$2 + 6 = \square$

$2 + 9 = \square$

$2 + 8 = \square$

Tuesday 24.11.20

Practice activity

$3 + 2 = \square$

$\square = 6 + 2$

$9 - 2 = \square$

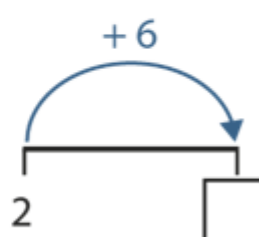

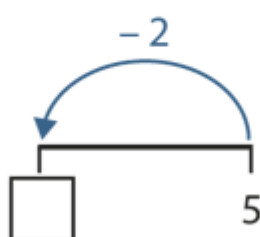

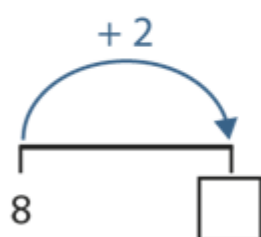

$2 + 9 = \square$

$\square = 2 + 5$

$2 - 2 = \square$

Challenge

Ready for a challenge?

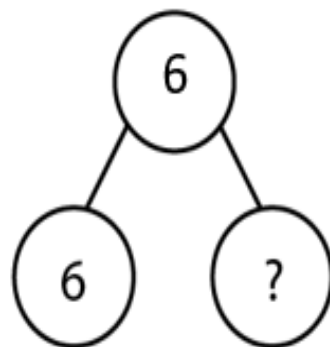

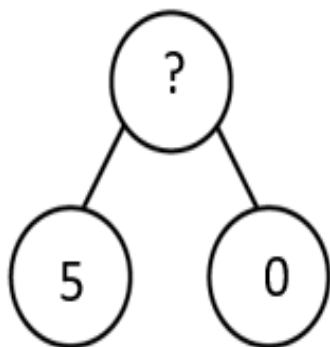

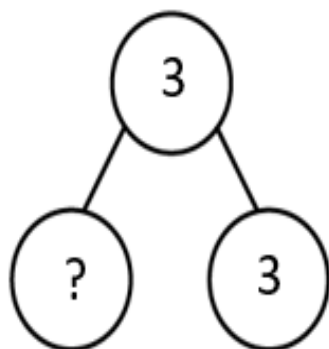

Practice activity

1) There are 9 children. Six of them have scooters, how many of them don't have scooters?

2) I need 5 metres of fabric to make some costumes. I need 3 metres of fabric to make some curtains. How much fabric do I need altogether?

Practice activity

$$0 + 9 = \square$$

$$0 + 2 = \square$$

$$0 + 0 = \square$$

Practice activity

Missing-number problems:

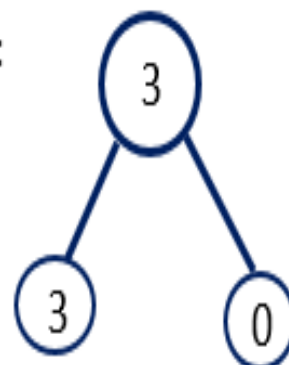

$$4 - 4 = \boxed{0} \quad \boxed{1} - 1 = 0$$

$$\boxed{9} - 9 = 0 \quad 5 - \boxed{5} = 0$$

Are you ready for a challenge?

$$\boxed{} - \boxed{} = 0$$

Part-part-whole:
